Attached is relevant public information in regards to Ripple, this is not an investment recommendation

About: Ripple provides the ability to send money globally using blockchain technology. According to the company, by joining Ripple's network, financial institutions can process their customers' payments anywhere in the world instantly, reliably, and cost-effectively. Banks and payment providers can use the digital asset XRP to further reduce their costs and access new markets.

The power of RippleNet:

- Decentralized Infrastructure (3+ seconds to send a payment)
- Modernized Messaging (0% failure rate)
- Liquidity Solutions (\$0 in pre-funding)

Funding:

- December 2014 -\$40.6M
- March 2016 - \$52.5M
- December 2019 -\$300M
